

School Kick Starter Program

In 2018 we will be raising funds for 60 of our young players to transition into their next year of school in January 2019. All players are at risk of not continuing with their education due to the lack of funds to purchase them the essential to go to school. The families are often living off less than \$1 a day.

The amount can barely feed their family let alone keep their children at school. The cost of sending a child to secondary school is considerably more than for primary school. This means that many of the children who are living below the poverty line do not have the opportunity to attend secondary school thus impacting the rest of their lives and continuing the cycle of poverty.

The kick starter pack includes:

- 2 x school uniforms
- 1 new pair of shoes
- 2 new pairs of socks
- 4 x exercise books
- 5 x pens
- Lunch for 12 months

The investment is only \$100 per player.

We are proud to support our players in this important life stage and help break the cycle of poverty that currently exists. Visit our website for more information or to donate.
